

ESTONE

DESIGNER CONCRETE

Our manufacturing process combines age-old methods with innovative technologies to produce a high performance standardized product without sacrificing the spontaneity and character of the concrete. No two pieces will be the same!

2Stone Concrete Veneers are manufactured with lightweight fibre reinforced concrete that is suitable for interior and exterior applications. Our veneers are durable, low maintenance, and well suited for commercial use.

Our veneers look and feel like real concrete, because that's exactly what they are: Real Concrete. At 2Stone we celebrate the integrity, strength, lifespan, and raw natural beauty of the material.

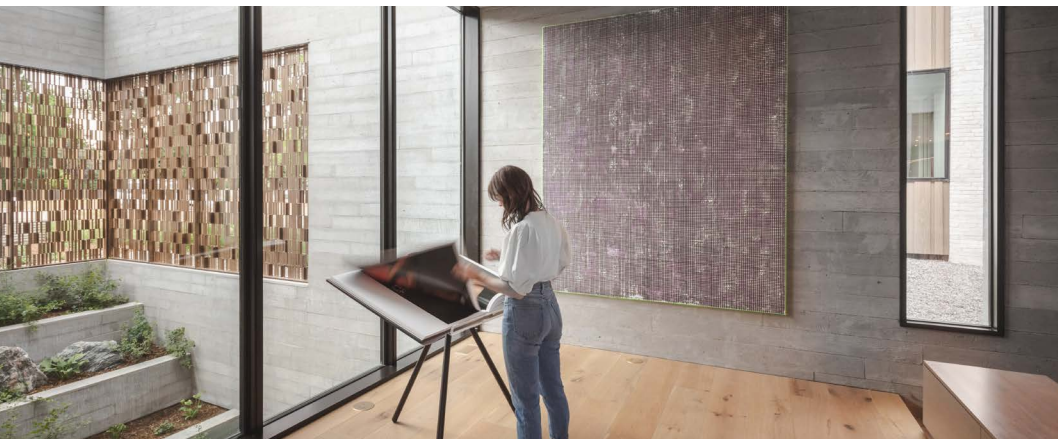

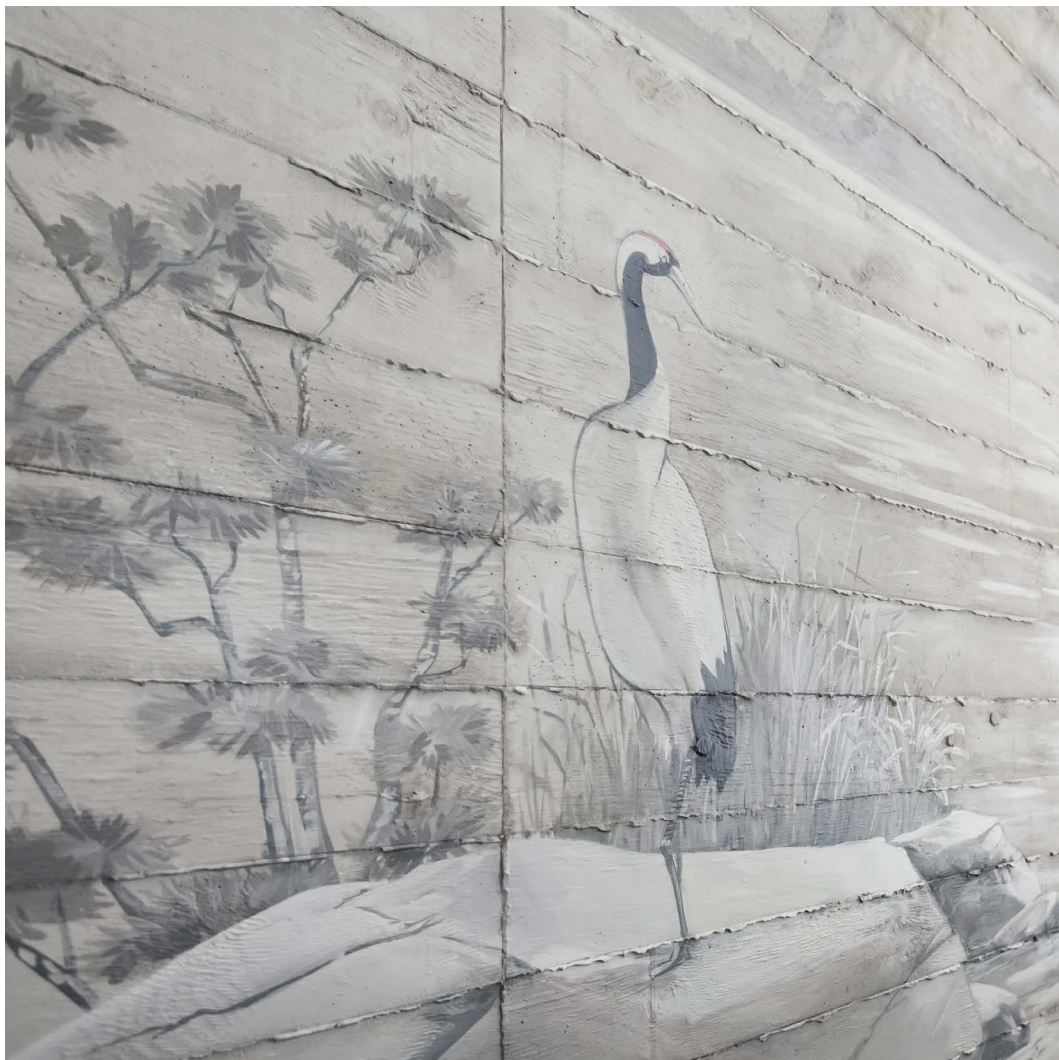

Board Form Veneer

2STONE IN SITU SERIES

Board Form Veneer | Industrial Veneer | Pitted Veneer

Our In Situ Series were developed as a cost effective and simple alternative to achieving the look of traditional “cast in place” techniques. No complicated fasteners, clipping systems, or specialty tools are required for installation, which ultimately saves our clients time and money when considering overall project costs.

In Situ Series

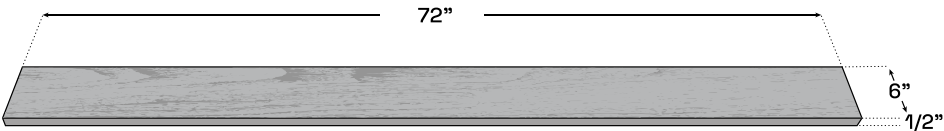

Our **2Stone Board Form** innovation allows more design opportunities and frees you from some of the common burdens that come with cast-in-place concrete. Walls can transition seamlessly from inside to out and still be fully insulated. No specialty tools, trades, or equipment is required to install our product. Each veneer is lightweight and ready for installation.

Size: 72" x 6" x 1/2"

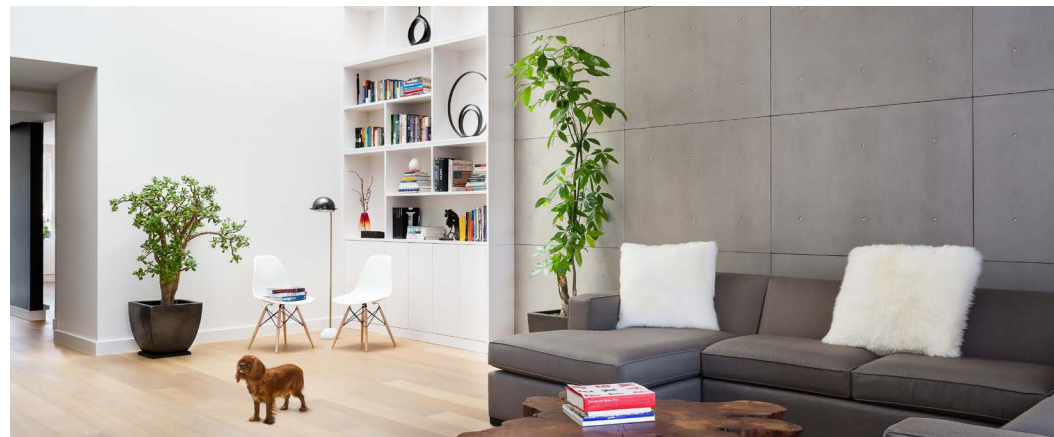

Weight: +-12lbs per tile

Colour: Standard Grey – custom colors available upon request

Application: Suitable for interior and exterior applications

Board Form Veneer

In Situ Series

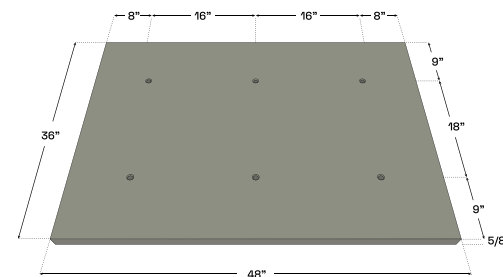

The **Industrial Veneer** has a subtle wood texture and “tie holes.” The indents are intended to emulate the holes left behind after wooden forms and steel rod supports were removed from conventional “cast-in-place” projects.

Size: 48” x 36” x $\frac{5}{8}$ ”

Weight: Approx. 75lbs per tile

Colour: Standard Grey – custom colors available upon request

Application: Suitable for interior and exterior applications

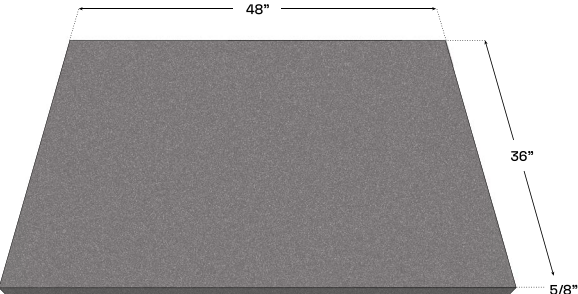

Industrial Veneer

In Situ Series

The **Pitted Veneer** finish is a distinctively beautiful concrete surface that showcases the porosity and patina you would find in naturally aged concrete.

- Size:** 48" x 36" x 5/8"
- Weight:** Approx. 75lbs per tile
- Colour:** Standard Grey with stain – custom colors available upon request
- Application:** Suitable for interior and exterior applications

Pitted Veneer

Single Flute

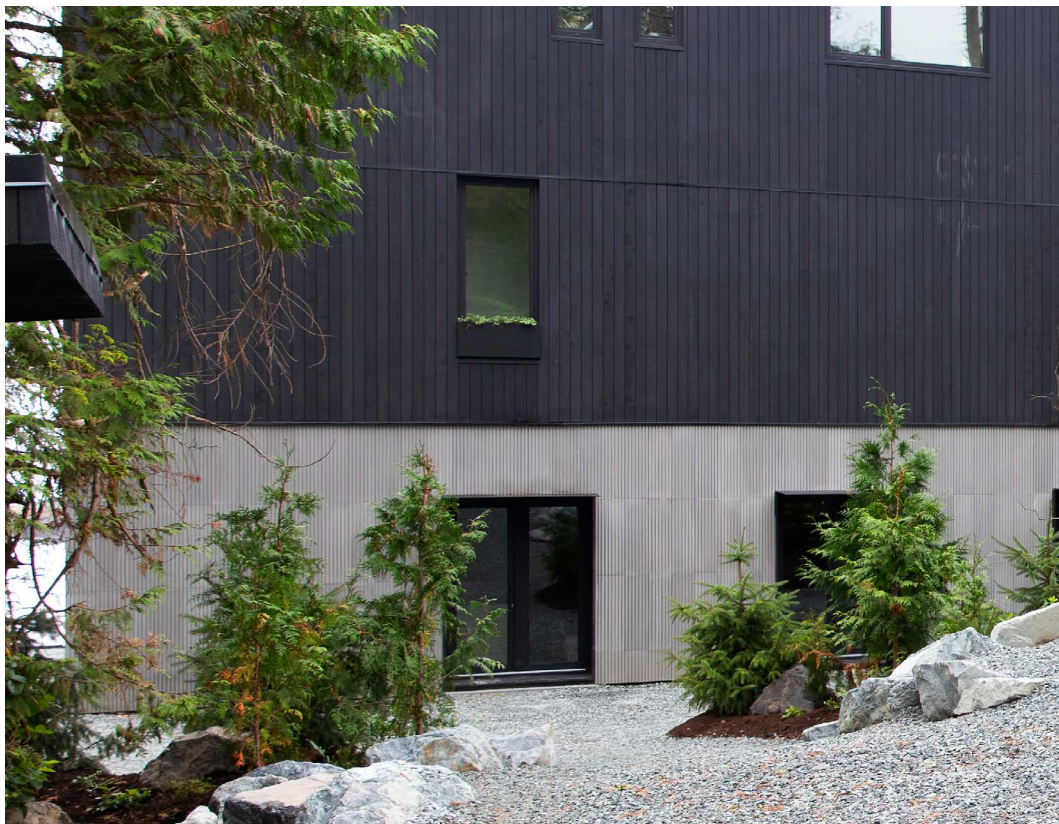

Fluted Series

2STONE FLUTED SERIES

Channel Tile | Channel End Tile | Single Flute

2Stone Fluted Series was inspired by some of our favorite and most sought after custom projects. Intrigued by the juxtaposition of our raw material and soft fluid curves, this series was created.

One of the great and unique features of our material is the ability to create 3 dimensional products. We wanted to take full advantage of the unique design capabilities with the deep peaks and valleys of the Channel Tile and the luxurious curves of the Single Flute. With natural and/or well-placed lighting your project will provide you with luxurious shadows really elevating the space.

DUNE

STANDARD GREY

Fluted Series

The **Channel Tile** was inspired by custom panels we created for the Lukes Café project. This tile can be used with two Channel End tiles, one End tile or on its own depending on your space and call for design. The durability combined with the soft profile gives the ability to be used on any scale. Whether that be your island/bar front or a commercial building facade.

Size 35.75" x 10.5" x 1"

Weight: Approx. 22lbs per tile

Colour: Standard Grey, Dune, Ivory and Wolf. Custom color available upon request.

Application: Suitable for interior and exterior applications

Fluted Series

The beauty of this **Single Flute** tile is in its singularity and the 36" length. The fact that it is singular allows you to wrap any curve seamlessly. The concrete combined with the smooth soft deep curves makes this timeless.

Size 35.75" x 2.5" x 1.25"

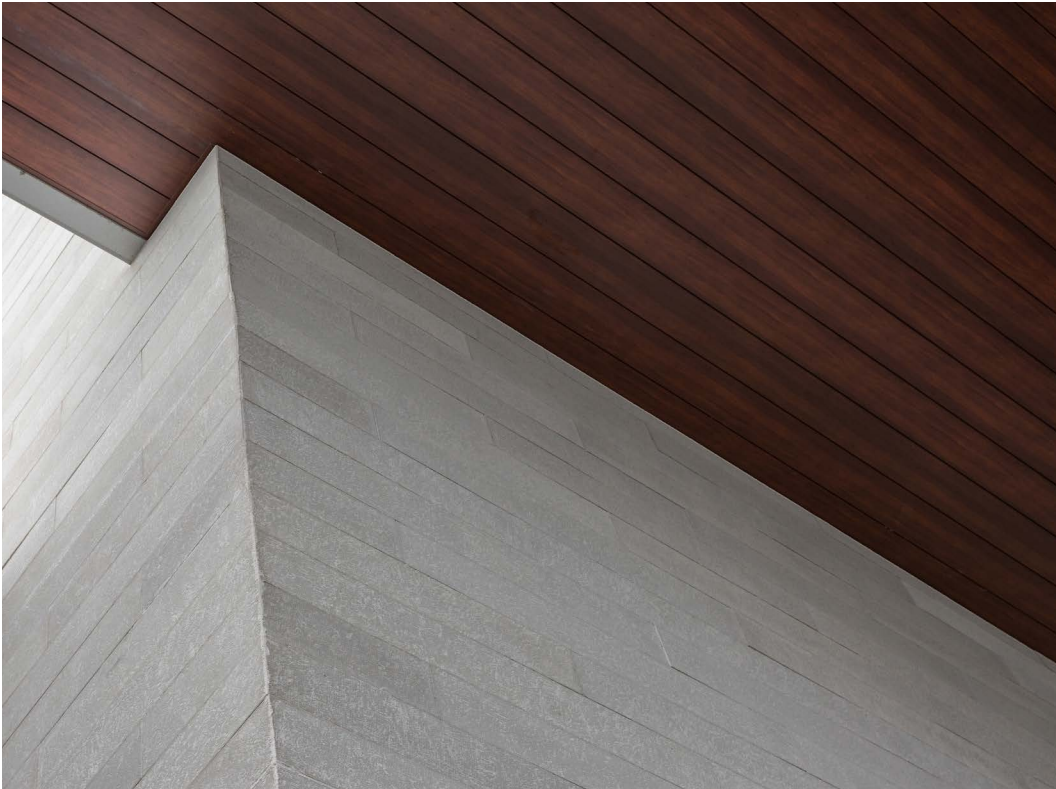

Weight: Approx. 5.5lbs per tile

Colour: Standard Grey, Dune, Ivory and Wolf. Custom color available upon request

Application: Suitable for interior and exterior applications

Single Flute

The **Raked Veneer** offers a subtle linear detail while remaining organic and true to its material. This texture was inspired by an age-old technique used to finish concrete.

Size: 36" x 6" x 1/2"

Weight: Approx. +- 4 lbs/sq.ft

Colour: Standard Grey, Dune, Ivory and Wolf.

Application: Suitable for interior and exterior applications
